

Число и цифра 9

Имя: _____

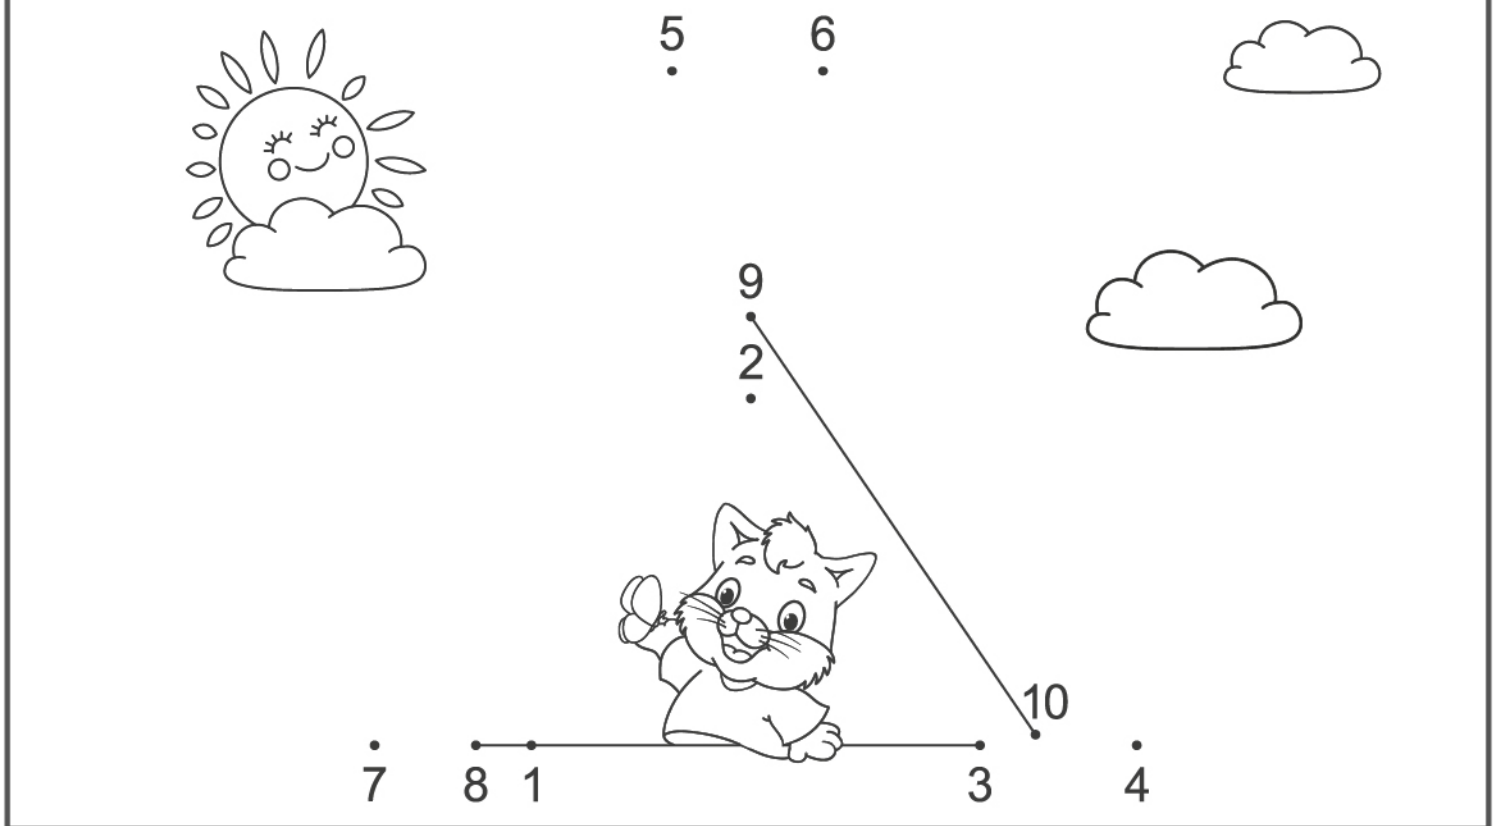

Дата: _____

Молодой человек собирается колоть бревна на дрова. Начнет он с бревен с сучками. Поможем ему. Раскрась коричневым цветом только бревна с сучками. Посчитай их. Обведи цифру, соответствующую их количеству.

The illustration shows a young man in traditional-style clothing standing with his hands on his hips, holding an axe. He is surrounded by several logs of varying lengths and orientations. Some logs have small branches or knots protruding from them. To the right of the logs are three dotted circles for counting: the top one contains 7 dots, the middle one contains 9 dots, and the bottom one contains 10 dots.

Проведи линии последовательно от цифры 1 до цифры 9. Получится рисунок. Что это? Раскрась картинку.

The puzzle consists of a grid of dots. The dots are arranged as follows: a horizontal line with dots labeled 7, 8, 1, 3, 4; a vertical line with dots labeled 5, 6; a vertical line with dots labeled 9, 2; and a diagonal line with dots labeled 10. A line is drawn from the dot labeled '9' to the dot labeled '10'. The puzzle is intended to be completed by drawing lines from dot 1 to dot 9 to form a picture of a cat. There are also two clouds in the scene.
